1. Description of Plan

The following description of the Ryder System, Inc. Deferred Compensation Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General. The Plan was adopted effective January 1, 1997. The Plan is unfunded and is intended to be exempt from the participation, vesting, funding, and fiduciary requirements of Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), but is subject to certain reporting and disclosure requirements under ERISA. Further, benefits under the Plan are not guaranteed under Title IV of ERISA. The right of participants or their designated beneficiary to receive a distribution under the Plan will be an unsecured claim against the general assets of Ryder System, Inc. (the Company), and neither the participant nor a designated beneficiary will have any rights in or against any specific assets of the Company.

The Company maintains assets in a grantor trust (the Trust) solely for the benefit of the Plan participants, which may be used to pay all or a portion of the obligations of the Plan. The Trust provides greater assurance that future benefits under the Plan will be paid in the event that a change of control should occur or under other circumstances. However, the right of a participant or his designated beneficiary to receive a distribution under the Plan will be an unsecured claim against the Trust and the general assets of the Company in the event of bankruptcy, and neither the Plan, participant, nor a designated beneficiary will have any rights in or against any specific assets of the Trust or the Company.

The Plan Administrator is Ryder System, Inc.'s Vice President of Compensation and Benefits. The Plan's trustee and recordkeeper is Fidelity Management Trust Co.

Eligibility. Participation in the Plan is voluntary. To participate in the Plan, an employee must (i) be designated by the Company's Retirement Committee to be eligible to participate in the plan and (ii) be part of a select group of management or highly compensated employees within the meaning of Sections 201(2), 301(a)(3) and 401(a)(1) of ERISA. Members of the Board of Directors are eligible for participation in the Plan.

Contributions. Compensation deferral agreements are effective on a Plan year basis, and must be filed before the beginning of a Plan year. With respect to any compensation deemed to be performance-based under Section 409(a) of the Code, such election must be made no later than six months before the end of the performance cycle. Participants may defer up to 100% of compensation less the amount of Ryder System, Inc. 401(k) Savings Plan (Savings Plan) tax-deferred contributions. Income taxes are deferred on participants' salary reductions and the deferred salary amounts are assumed to be invested (notional investments) in accordance with investment options selected by each participant. The investment options offered by the Plan include a total of sixteen notional investments. Participants may transfer their contributions among funds on a daily basis. The Company may, but is not required to make Company contributions into the Participant's accounts. In 2007 and 2006, the Company did not make any Company Contributions.

Table of Contents

Participant Accounts. Each participant's account is credited with the participant's contribution and allocation of appreciation/(depreciation) which is indexed to the market performance of the participant's elections among the notional investment funds made available under the Plan less administrative expenses, if any. Allocations are based on participant earnings or account balance. Appreciation/(depreciation) is allocated daily based on units of notional investment. Forfeited balances of terminated participants' non-vested accounts can be used to reduce future Company contributions. At December 31, 2007 forfeited non-vested accounts available to reduce future employer contributions totaled \$33,340. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions and any appreciation thereon. Upon completion of two years of service, participants vest 25% in the Company contributions and the appreciation attributable to such contributions and 25% upon completion of each year thereafter until they are fully vested. Participants will become fully vested in Company contributions and the earnings attributable to such contributions when they reach age 65, become permanently disabled or upon death while employed by the Company.

Distributions. A participant may request a distribution of all or a portion of his elective contribution account balance if he can demonstrate financial hardship. The Plan Administrator must approve the request and the amount withdrawn cannot be subsequently repaid to the Trust.

All distributions from the Plan are made in a lump sum during the month of January following disability, death or other termination of employment, each an event of separation of employment, or a participant can elect a fixed date distribution to occur in July of the year selected for distribution. In the event of retirement, a participant may elect to receive either (a) a lump sum during the January immediately following retirement, or (b) a minimum of two, and a maximum of 15 annual installments beginning in the January immediately following retirement. The distribution upon retirement shall be made in accordance with the participant's most recent election, which is effective at least one year prior to the date of retirement. If the participant is a key employee, as defined in Section 416(i) of the tax code, at the time of an event of separation of employment or retirement, the lump sum payment may not be made earlier than the January following 6 months from the date of such event of separation of employment or retirement. Prior to January 1, 2003, each participant of the Plan could elect a method of receipt of distributions from the Plan upon retirement, disability, death or other termination of employment, each an event of separation of employment or a participant can elect a fixed date distribution. Such election indicated that the participant has chosen to receive either: (a) a lump sum during the January immediately following the earliest triggering event of the participant's separation from employment, or (b) a minimum of two, and a maximum of 15 annual installments beginning in the January immediately following the earliest triggering event of the participant's separation from employment, or as soon as administratively practicable thereafter.

2. Summary of Significant Accounting Policies

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions are subject to inherent uncertainties, which may result in actual amounts differing from reported amounts.

Table of Contents

Receivable from Company. The Plan's sole investment is a receivable from the Company equal to the notional amount of the participants' accounts including Company matches. Purchases and sales of notional investments are recorded on a trade-date basis. Dividends on notional investments in Company common stock and mutual funds are recorded on the record date. Interest income on notional investments is recorded on the accrual basis.

Payment of Benefits. Benefits are recorded when paid.

Risk and Uncertainties. The amount of the Plan's receivable from the Company is based on, among other things, the performance of the notional investments which consist of stocks, bonds, fixed income securities, and other investment securities and the financial viability of the Company. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Financial Condition and the Statements of Changes in Plan Equity.

4. Plan Termination

While it has not expressed any intention to do so, the Company may amend or terminate the Plan at any time. In the event the Plan is terminated, no additional contributions to the Plan will be permitted after the effective date of the termination of the Plan, however the retirement committee shall continue to credit gains and losses to the participant's account until the account balance has been fully distributed. After the effective date of the Plan termination, distributions will continue to be made in accordance with the Plan provisions, including the limitations relating to distributions to key employees, as defined in the Plan.

5. Tax Status of the Plan

The Plan is not subject to federal income tax. It is operated as a nonqualified deferred compensation arrangement that effectively defers compensation for individual participants.

A participant generally will not be taxed on the tax-deferred contributions or the Company contributions to the Plan, or earnings thereon, allocable to his participant's account until such amounts are distributed to the participant or his beneficiary under the Plan. The value of the participant's account, including any earnings, is deductible by the Company for federal tax purposes in the year in which those amounts become taxable to the participant or his beneficiary.

Participants or their beneficiaries generally will be taxed, at ordinary income tax rates; on the amount they receive as a distribution from the Plan at the time they receive the distribution. Since the Plan is not qualified under Section 401(a) of the Code, distributions from the Plan will not qualify for any of the favorable tax rulings applicable to qualified tax distributions, such as tax-deferred rollovers or five year averaging. However, distributions from the Plan will not be subject to various excise taxes applicable to qualified plan distributions,

such as 10% excise tax on distribution prior to age 59 1/2, or the 15% excise tax on excess benefit payments.

Table of Contents

An employee's tax-deferred contributions to the Plan are subject to federal social security and medicare taxes and federal unemployment taxes when earned, and Company contributions, and any earnings thereon prior to the time such amounts become vested, are subject to those taxes when they become vested.

6. Plan Fees and Expenses

Although expenses of administration relating to the Plan may be charged against a participant's account, at the present time, the Company has elected to pay all administrative and marketing expenses. The Company has paid \$10,000 for each of the years ended December 31, 2007, 2006 and 2005 for the administration of the Plan.

7. Plan Amendment

Effective December 31, 2007, the Plan was amended to provide for Company contributions on a participant's eligible pay in excess of the applicable IRS limits of a 401(k) plan. Employees eligible to participate in the enhanced component of the Ryder System, Inc. 401(k) Savings Plan will also participate in a newly enhanced Deferred Compensation Plan provided they meet eligibility requirements of the Plan. Eligible employees will receive (a) Company contributions equal to 3% of excess eligible pay, even if participants do not make contributions to the Plan and (b) a 50% match of participant contributions of up to 5% of excess eligible pay.
