Explanatory Note

As previously disclosed, on October 24, 2007, certain federal and state agencies executed a search warrant at our headquarters in Tampa, Florida. Our Board of Directors (the Board) formed a special committee (the Special Committee) comprised of independent directors to, among other things, investigate independently and otherwise assess the facts and circumstances raised in any federal or state regulatory or enforcement inquiries (including, without limitation, any matters relating to accounting and operational issues) and in any private party proceedings, and develop and recommend remedial measures to the Board for its consideration. The Special Committee and the Company are cooperating fully with federal and state regulators and enforcement officials in these matters. The Special Committee's review is ongoing and we cannot provide assurances as to when it will be completed. Based on the issues referred to date to the Special Committee, other than as described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 (the 2007 10-K), we currently do not believe that the work of the Special Committee will result in any material adjustments to the accompanying financial statements.

Upon consideration of certain issues identified in the Special Committee investigation and after discussions with management and our independent registered public accounting firm, the Audit Committee of the Board (the Audit Committee) recommended to the Board, and the Board thereafter concluded, that we should restate our previously issued consolidated financial statements for the years ended December 31, 2004, 2005 and 2006, including the quarterly periods contained therein, and the three-month period ended March 31, 2007 and the three- and six-month periods ended June 30, 2007.

This amended quarterly report on Form 10-Q (the Amended Form 10-Q) includes restated information for the three and six-month periods ended June 30, 2006, June 30, 2007, as well as for the year ended December 31, 2006.

We are in the process of preparing our quarterly reports on Form 10-Q for each of the first three quarters of 2008, all of which are past due. We intend to file our past due 2008 Form 10-Qs as soon as practical.

References to the Company, WellCare, we, our and us in this Amended Form 10-Q refer to WellCare Health Inc., together, in each case, with our subsidiaries and any predecessor entities unless the context suggests otherwise.

Other than in connection with the restatement and investigations, we have not undertaken to modify or update the disclosure contained in the originally filed quarterly report on Form 10-Q for the three and six-month period ended June 30, 2007 (the Original Form 10-Q). Accordingly, for information regarding events related to us and our business that have occurred subsequent to June 30, 2007 and for updated Risk Factors, please review our 2007 10-K filed on January 26, 2009 and other filings we have made with the U.S. Securities and Exchange Commission (the SEC), which can be accessed at www.sec.gov.

WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)

1. ORGANIZATION AND BASIS OF PRESENTATION

WellCare Health Plans, Inc., a Delaware corporation (the Company, WellCare, we, our or us), provides managed care services exclusively to government-sponsored healthcare programs, focusing on Medicaid and Medicare, including health plans for families, children, the aged, blind and disabled and prescription drug plans, serving approximately 2,302,000 members nationwide as of June 30, 2007. The Company's Medicaid plans include plans for individuals who are dually eligible for both Medicare and Medicaid, beneficiaries of the Temporary Assistance to Needy Families (TANF) program, Supplemental Security Income (SSI) program, State Children's Health Insurance program (S-CHIP), and the Family Health Plus (FHP) program. Through its licensed subsidiaries, as of June 30, 2007 the Company operated its Medicaid health plans in Connecticut, Florida, Georgia, Illinois, Missouri, New York and Ohio. The Company's Medicare plans include stand-alone prescription drug plans (PDP) and Medicare Advantage plans, which include both Medicare coordinated care (MCC) plans and Medicare private fee-for-service (PFFS) plans. As of June 30, 2007, the Company offered its MCC plans in Connecticut, Florida, Georgia, Illinois, Louisiana and New York, and its PDP plans in all 50 states and the District of Columbia and its PFFS plans in 39 states and the District of Columbia.

Basis of Presentation

The accompanying unaudited condensed consolidated interim financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 31, 2007 included in the 2007 Company's Annual Report on Form 10-K for the year ended December 31, 2007 (the 2007 10-K), which the Company filed with the U.S. Securities and Exchange Commission (SEC) on January 26, 2009. In the opinion of the Company's management, the interim financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of the financial position and results of operations and cash flows for the interim periods presented. The interim financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted. Results for the interim periods presented are not necessarily indicative of results that may be expected for the entire year or any other interim period.

Table of Contents

WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)

Net Income per Share

The Company computes basic net income per common share on the basis of the weighted-average number of unrestricted common shares outstanding. Diluted net income per common share is computed on the basis of the weighted-average number of unrestricted common shares outstanding plus the dilutive effect of outstanding restricted shares and stock options using the treasury stock method. The following table presents the calculation of net income per common share basic and diluted:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
	(Restated)	(Restated)	(Restated)	(Restated)
Numerator:				
Net income basic and diluted (in thousands)	\$ 54,850	\$ 18,660	\$ 77,653	\$ 31,945
Denominator:				
Weighted-average common shares outstanding basic	40,585,325	39,345,011	40,375,445	38,970,062
Dilutive effect of:				
Unvested restricted common shares	413,877	523,931	448,310	560,039
Stock options	937,091	761,512	985,815	766,383
Weighted-average common shares outstanding diluted	41,936,293	40,630,454	41,809,570	40,296,484
Net income per common share:				
Net income per common share basic	\$ 1.35	\$ 0.47	\$ 1.92	\$ 0.82
Net income per common share diluted	\$ 1.31	\$ 0.46	\$ 1.86	\$ 0.79

Certain options to purchase common stock were not included in weighted-average common shares outstanding diluted and therefore are not included in the calculation of diluted net income per common share because their exercise prices were greater than the average market price of the Company's common stock for the period and, therefore, the effect would be anti-dilutive. For the three- and six-month periods ended June 30, 2007, approximately 65,000 shares with an exercise prices ranging from \$90.35 to \$92.99 and 478,600 shares with exercise prices ranging from \$85.53 to \$92.99 per share were excluded from diluted weighted-average common shares outstanding, respectively. For the three- and six-month periods ended June 30, 2006, approximately 79,000 shares with exercise prices ranging from \$47.40 to \$48.50 were excluded from diluted weighted-average common shares outstanding.

Recently Issued Accounting Standards

In June 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in a company's financial statements. FIN 48 requires companies to determine whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recorded in the financial statements. It also provides guidance on the recognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. Previously recorded income tax benefits that no longer meet this standard are required to be charged to earnings in the period that such determination is made. FIN 48 also requires significant additional disclosures. The Company's adoption of FIN 48 as of January 1, 2007 did not have a material impact on the Company's

condensed consolidated financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and requires enhanced disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements. The pronouncement is effective for fiscal years beginning after November 15, 2007. The guidance in SFAS 157 will be applied prospectively with the exception of: (i) block discounts of financial instruments; and (ii) certain

Table of Contents

WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)

financial and hybrid instruments measured at initial recognition under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS 133), which are to be applied retrospectively as of the beginning of initial adoption (a limited form of retrospective application). The Company intends to adopt the new standard during the first quarter of 2008 as required. The Company is currently evaluating the impact of SFAS 157 and does not expect that the pronouncement will have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits an entity to measure certain financial assets and financial liabilities at fair value. Under SFAS 159, entities that elect the fair value option will report unrealized gains and losses in earnings at each subsequent reporting date. The pronouncement is effective for fiscal years beginning after November 15, 2007. The Company intends to adopt the new standard during the first quarter of 2008 as required. The Company is currently evaluating the impact of SFAS 159 and does not expect that the pronouncement will have a material impact on the Company's consolidated financial statements.

2. RESTATEMENT OF PREVIOUSLY ISSUED CONSOLIDATED FINANCIAL STATEMENTS

In October 2007, certain federal and state agencies executed a search warrant at the headquarters of the Company in Tampa, Florida. Our Board of Directors (the Board) formed a special committee (the Special Committee) comprised of independent directors to, among other things, investigate independently and otherwise assess the facts and circumstances raised in any federal or state regulatory or enforcement inquiries (including, without limitation, any matters relating to accounting and operational issues) and in any private party proceedings, and develop and recommend to the Board for its consideration remedial measures. The Special Committee retained an outside law firm to advise and assist it in the investigation. The Special Committee and the Company are cooperating fully with regulators and enforcement officials.

Upon consideration of certain issues identified in the Special Committee investigation and as discussed below, in July 2008, management and the Board determined that we should restate our previously issued consolidated financial statements for the years ended December 31, 2006, 2005 and 2004, including the quarterly periods contained therein. In addition, in light of the work of the Special Committee, we reassessed our previously issued unaudited condensed consolidated financial statements for the three-month period ended March 31, 2007 and the three- and six-month periods ended June 30, 2007. Based on such reassessment, management and the Board determined that we should restate our previously issued unaudited condensed consolidated financial statements for the three-month period ended March 31, 2007 and the three- and six-month periods ended June 30, 2007.

The restatements relate to accounting errors identified in connection with our compliance with the refund requirements under (a) the behavioral health component of our contract with the Florida Agency for Health Care Administration (AHCA) to provide behavioral health care services for our Florida Medicaid members (the AHCA contract), (b) our Healthy Kids contract with the Florida Healthy Kids Corporation pursuant to which we provide health benefits for children whose family income renders them ineligible for Medicaid, and (c) our Medicaid contract with the Illinois Department of Health and Family Services to provide health care services to our Illinois Medicaid members.

In each of the affected Medicaid programs, we receive premiums to be used to provide certain medical and health benefits. Those premiums are subject to statutory or contractual obligations that require us to expend a minimum percentage of the premiums on eligible medical expense. To the extent that we expend less than the minimum percentage of the premiums on eligible medical expense, we are required to refund all or some portion of the difference between the minimum and our actual allowable medical expense. With respect to the AHCA and Healthy Kids contracts, we have determined that we included certain ineligible medical expenses in our premium refund calculations, which understated the amount of the refunds. In light of the inclusion of ineligible medical expenses in our refund calculations, we did not record an adequate liability for the refunds, which resulted in an error in our previously filed financial statements. We also did not record an adequate liability for the anticipated refund amount

with respect to the Illinois Medicaid program.

Summary of Restated and Reclassified Items

The following is a reconciliation of the Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Income, and Consolidated Statements of Cash Flows as originally reported to balances as restated for the period ended June 30, 2007, the year ended December 31, 2006, the three and six-month periods ended June 30, 2007 and 2006, and the six-month periods ended June 30, 2007 and 2006, respectively. The adjustments below resulted from (1) the restatement as described above, (2) the correction of errors that were previously deemed immaterial, both individually and in the aggregate, to the consolidated financial statements and (3) the adjustment of the presentation of certain amounts to conform to the 2007 presentation as presented in the Condensed Consolidated Balance Sheet.

Table of Contents

- (1) The adjustments relate to the correction of errors to properly state the balance in connection with the restatement. Such errors were previously deemed immaterial, both individually and in the aggregate, to the consolidated financial statements.
- (2) The adjustments are for the tax-effect of the restatement adjustments recorded in the period ended June 30, 2007 and explained in the following June 30, 2007 Condensed Consolidated Statement of Income reconciliation to restated June 30, 2007 balances.
- (3) The reclassification from Medical benefits payable is due to the reclassification of amounts to Other payables to government partners for

recorded liabilities for retrospective premium refunds that were previously recorded as Medical benefits payable prior to the restatement.

(4) The adjustments to Other payables to government partners is the cumulative effect of the restatement for retrospective premium refund, of which \$7,858 relates to the six-month period ended June 30, 2007 and is reflected in the Six months ended June 30, 2007 Condensed Consolidated Statement of Income Reconciliation below, \$19,956 relates to 2006, \$7,475 relates to 2005 and \$11,153 relates to 2004.

(5) The adjustment to Retained earnings is the income statement impact of restatement adjustments recorded during

the six-month
period ended
June 30, 2007
and the year
ended 2006,
2005 and 2004.

- (6) The adjustment of \$13,717 to Deferred income taxes and Other liabilities is the result of the restatement adjustments and to record a FIN 48 liability as of June 30, 2007. Refer to Note 5 for further analysis.

Net income per common share - basic	\$ 1.35	\$	\$	\$ 1.35
Net income per common share - diluted	\$ 1.30	\$ 0.01	\$	\$ 1.31

(1) The adjustments relate to the correction of errors to properly state the balance in connection with the restatement. Such errors were previously deemed immaterial, both individually and

in the aggregate,
to the condensed
consolidated
financial
statements.

- (2) The adjustment to Premium is primarily related to the \$3,395 restatement adjustment for retrospective premium refunds recorded in addition to the amounts recorded prior to the restatement and reclassified as noted in (4) below. The adjustment is offset by amounts previously deemed immaterial that were recorded for the correction of errors in connection with the restatement, see (1) above.
- (3) The adjustment to Income tax expense is the income tax effect of the restatement and other adjustments reflected above.
- (4) The reclassification to premium represents the three months

ended June 30, 2007 amounts originally recorded as medical expenses prior to the restatement related to the risk corridor under the prescription drug program.

The reclassification is to reflect such amounts as reduction to premium. These reclassifications do not impact our previously reported Net income, Earnings per share or Net cash provided by operations for the three months ended June 30, 2007.

Table of Contents

**WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)**

- (1) The adjustment to Net income represents the period ended June 30, 2007 effect of the restatement amounts recorded for the six months ended June 30, 2007 and included in the Six Months Ended June 30, 2007 Condensed Consolidated Statement of Income reconciliation.

- (2) The adjustments relate to the period-over-period change resulting from the correction of errors in connection with the restatement, which is explained in the June 30, 2007 Condensed Consolidated Balance Sheet reconciliation. Such errors were previously deemed immaterial, both individually and in the aggregate, to the consolidated financial statements.

- (3) The adjustment to Other payables to government

partners is the effect of the cumulative year over year change relating to the restatement for retrospective premium refund, for both existing liabilities and additional liabilities as discussed previously. The reclassification between Medical benefits payable and Other payables to government partners is due to the reclassification of existing liabilities as discussed previously and shown in the June 30, 2007 Condensed Balance Sheet reconciliation.

- (4) The reclassifications were recorded to correct the presentation of certain amounts to conform to the June 30, 2007 presentation as presented in the Condensed Consolidated Statement of Cash Flows. The reclassifications do not impact the Company's previously reported net cash provided by or used in

operating activities,
financing activities,
or investing
activities.

- (5) The adjustment to Additions to property and equipment, net resulted from a change in the determination of non-cash additions to property and equipment previously included in the Accounts payable line item.

**WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)**

- (1) The adjustments relate to the correction of errors to properly state the balance in connection with the restatement. Such errors were previously deemed immaterial, both individually and in the aggregate, to the consolidated financial statements.

- (2) The adjustment is the tax-effect of the restatement adjustments recorded in calendar year 2006 and explained in the following 2006 Condensed Consolidated Statement of Income reconciliation to restated 2006 balances.

- (3) The adjustments to Other payables to government partners is the cumulative effect of the restatement for

retrospective premium refund, for both existing liabilities in (4) below and additional liabilities as discussed previously, of which \$19,956 relates to 2006, \$7,475 relates to 2005, and \$11,153 relates to 2004.

- (4) The adjustment to Medical benefits payable is primarily due to the reclassification of amounts to the Other payables to government partners for existing recorded liabilities related to the restatement that were previously recorded as Medical benefits payable prior to the restatement.

- (5) The adjustment to Retained earnings is the income statement impact of restatement adjustments from 2006, 2005 and 2004.

(6)

The adjustment to Unearned premiums and Other accrued expenses represents the reclassification recorded to reflect certain liabilities as other liabilities to conform to the 2007 presentation of such balances as presented in the 2007 Consolidated Balance Sheet.

SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION -				
Cash paid for taxes	\$ 13,883	\$	\$	\$ 13,883
Cash paid for interest	\$ 6,810	\$	\$	\$ 6,810

(1) The adjustment relates to the year over year change resulting from the correction of errors in connection with the restatement, which is explained in the June 30, 2006 Condensed Consolidated Balance Sheet reconciliation. Such errors were previously deemed immaterial, both individually and in the aggregate, to the consolidated financial statements.

(2) The adjustment to Net income

represents the effect of the restatement amounts recorded for the six months ended June 30, 2006, and included in the six months Ended June 30, 2006 Condensed Consolidated Statement of Income reconciliation.

- (3) The adjustment to Additions to property and equipment, net resulted from a change in the determination of non-cash additions to property and equipment previously included in the Accounts payable line item.
- (4) The adjustment to Other payables to government partners is the effect of the cumulative year over year change relating to the restatement for retrospective premium refund, for both existing liabilities and additional liabilities as

discussed previously. The reclassification between Medical benefits payable and Other payables to government partners is due to the reclassification of existing liabilities as discussed previously and shown in the June 30, 2006 Condensed Balance Sheet reconciliation.

- (5) The reclassifications were recorded to correct the presentation of certain amounts to conform to the June 30, 2007 presentation as presented in the Consolidated Statement of Cash Flows. The reclassifications do not impact the Company's previously reported net cash provided by or used in operating activities, financing activities, or investing activities.

3. SEGMENT REPORTING

The Company has two reportable segments: Medicaid and Medicare. The segments were determined based upon the type of governmental administration, regulation and funding of the healthcare plans. Segment performance is evaluated based upon earnings from operations without corporate allocations. Accounting policies of the segments are consistent with those applied at December 31, 2006.

The Medicaid segment includes operations which provide healthcare services to recipients that are eligible for state supported programs including Medicaid and children's health programs. The Medicare segment includes operations which provide healthcare services and prescription drug benefits to recipients who are eligible for the federally supported Medicare program.

Asset, liability and equity amounts by segment have not been disclosed, as they are not reported by segment internally by the Company.

	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
	2007	2006	2007	2006
	(Restated)	(Restated)	(Restated)	(Restated)
Premium revenue:				
Medicaid	\$ 649,410	\$ 383,203	\$ 1,282,834	\$ 731,930
Medicare	658,413	457,321	1,313,682	900,321

Total:	\$ 238,976	\$ 132,915	\$ 432,397	\$ 251,273

4. EQUITY-BASED COMPENSATION

The compensation expense recorded related to our equity-based compensation awards for the three months ended June 30, 2007 and 2006 was \$6,786 and \$2,900, respectively, and \$12,405 and \$8,650 for the six months ended June 30, 2007 and 2006, respectively. During the three months ended June 30, 2007, the Company granted options under the Company's 2004 Equity Incentive Plan for the purchase of 77,523 shares of common stock at a weighted-average exercise price of \$90.12 per share and a weighted-average Black-Scholes fair value of \$24.28 per share. During the six months ended June 30, 2007, the Company granted options under the Company's 2004 Equity Incentive Plan for the purchase of 560,701 shares of common stock at a weighted-average exercise price of \$84.90 per share and a weighted-average Black-Scholes fair value of \$23.93 per share. At June 30, 2007, options for 2,678,114 shares were outstanding with a weighted-average exercise price of \$44.06 per share. The total intrinsic value of options exercised during the three months ended June 30, 2007 and 2006 determined as of the date of exercise was \$25,783 and \$4,193, respectively, and \$41,901 and \$8,306 for the six months ended June 30, 2007 and 2006, respectively. During the three- and six-month periods ended June 30, 2007, the Company granted 60,034 and 252,126 restricted

shares, respectively, under the Company's 2004 Equity Incentive Plan at a weighted-average grant-date fair value of \$88.74 and \$84.56, respectively. At June 30, 2007, 867,519 restricted shares

20

Table of Contents

WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)

remained unvested. The total fair value of restricted shares vested during the three months ended June 30, 2007 and 2006 was \$3,073 and \$1,078, respectively, and \$5,683 and \$1,772 for the six months ended June 30, 2007 and 2006, respectively.

As of June 30, 2007, there was \$62,863 of unrecognized compensation costs related to non-vested equity-based compensation arrangements that is expected to be recognized over a weighted-average period of 3.7 years.

5. INCOME TAXES

The Company uses the asset and liability method of accounting for income taxes. As of June 30, 2007, net deferred tax assets were approximately \$18,586. In assessing the realizability of deferred tax assets, management considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies. The Company expects the deferred tax assets to be realized through the generation of future taxable income and the reversal of existing taxable temporary differences.

The Company adopted FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes*, on January 1, 2007. There was no cumulative effect of adopting FIN 48 for 2007. The total amount of unrecognized tax benefits as of the date of adoption was \$1,093. The amount of unrecognized tax benefits as of June 30, 2007 is \$14,810.

We classify interest and penalties associated with uncertain income tax positions as income taxes within our Condensed Consolidated Financial Statements. The FIN 48 liability is recorded in Other Liabilities. During the quarter ended June 30, 2007, the Company recognized \$0 in interest expense and thus has no accrued interest. No amount was accrued for penalties. As of June 30, 2007, the total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$1,093.

We currently file income tax returns in the U.S. federal jurisdiction and various states. The Internal Revenue Service (IRS) is currently completing its exams on the consolidated income tax returns for the 2004 through 2006 tax years. We are no longer subject to income tax examinations prior to 2004 in major state jurisdictions. We do not believe any adjustments that may result from these examinations will be significant.

We believe it is reasonably possible that our liability for unrecognized tax benefits will not significantly increase or decrease in the next twelve months as a result of audit settlements and the expiration of statutes of limitations in certain major jurisdictions.

6. DEBT

Credit Agreement

The Company and certain of its subsidiaries are parties to a credit agreement, dated as of May 13, 2004, which was subsequently amended on September 1, 2005 and on September 28, 2006 (as amended, the Credit Agreement).

The credit facilities under the Credit Agreement consist of a senior secured term loan facility in the amount of \$154,900 and a revolving credit facility in the amount of \$125,000, of which \$10,000 is available for short-term borrowings on a swingline basis. The term loan and credit facilities are secured by a pledge of substantially all of the assets of our non-regulated entities, which includes the stock of our operating subsidiaries directly held by our non-regulated entities. Interest is payable quarterly, currently at a rate equal to the sum of a rate based upon the applicable six month LIBOR rate plus a rate equal to 2.50%. The term loan matures in May 2009, and the revolving credit facility will expire in May 2008. The Company is a party to this agreement for the purpose of guaranteeing the indebtedness of its subsidiaries that are parties to the agreement. As of June 30, 2007, the revolving credit facility had not been utilized.

Table of Contents

WELLCARE HEALTH PLANS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, in thousands, except member and share data)

The Credit Agreement contains various restrictive covenants which limit, among other things, the Company's ability to incur indebtedness and liens, enter into business combination transactions and cause the Company's regulated subsidiaries to declare and pay dividends to it or its non-regulated subsidiaries. For more information, refer to Note 8.

7. COMMITMENTS AND CONTINGENCIES

As previously disclosed, on October 24, 2007, certain federal and state agencies executed a search warrant at our headquarters in Tampa, Florida. Our Board of Directors (the Board) formed a special committee (the Special Committee) comprised of independent directors to, among other things, investigate independently and otherwise assess the facts and circumstances raised in any federal or state regulatory or enforcement inquiries (including, without limitation, any matters relating to accounting and operational issues) and in any private party proceedings, and develop and recommend remedial measures to the Board for its consideration. The Special Committee and the Company are cooperating fully with federal and state regulators and enforcement officials in these matters. The Special Committee's review is ongoing and we cannot provide assurances as to when it will be completed. Based on the issues referred to date to the Special Committee, other than as described in our 2007 10-K, we currently do not believe that the work of the Special Committee will result in any material adjustments to the accompanying financial statements.

This amended quarterly report on Form 10-Q should be read in conjunction with the consolidated financial statements and notes thereto for the fiscal year ended December 31, 2007 included in the 2007 10-K filed with the SEC on January 26, 2009.

8. SUBSEQUENT EVENTS

Debt Default

The Credit Agreement, as discussed in Note 6, contains various restrictive covenants which limit, among other things, our ability to incur indebtedness and liens, enter into business combination transactions and cause our regulated subsidiaries to declare and pay dividends to us or our non-regulated subsidiaries. As a result of the on-going investigation discussed in Note 2, the Company has been unable to satisfy a number of such obligations, including providing audited financial statements, annual financial plans, and other information sought by the lenders under the Credit Agreement. Consequently, since November, 2007 the Company has been in default under the terms of this Credit Agreement. The Company continues to make payments as required, and consequently, there has been no payment default under the terms of the Credit Agreement. As of the date of this report, the Company's direct financial obligations under the Credit Agreement have not been accelerated or increased; however, the lenders have the right to do so at any time.

Investigation, Restatement, and Other

For more information related to the investigation, restatement, and related matters, refer to the 2007 10-K filed with the SEC on January 26, 2009.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

The following discussion of our financial condition and results of operations should be read in conjunction with the accompanying unaudited condensed consolidated interim financial statements and the notes to those statements appearing elsewhere in this report, our audited consolidated financial statements and the notes thereto for the year ended December 31, 2006, appearing in the 2006 Form 10-K.

This Amended Quarterly Report on Form 10-Q contains forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Statements that are predictive in nature, that depend upon or refer to future events or conditions or that include words such as may, will, should, expects, anticipates, intends, plans, believes, estimates, predicts, potential, continues and similar expressions are forward-looking statements.

Forward-looking statements involve known and unknown risks and uncertainties that may cause our actual future results to differ materially from those projected or contemplated in the forward-looking statements. These risks and uncertainties include, but are not limited to:

the potential expiration, cancellation or suspension of our state or federal contracts;

our lack of prior operating history in expansion markets such as Georgia, Missouri and Ohio, including lack of experience with network providers and health benefits management in such markets;

our lack of prior operating history in our PDP program and PFFS program;

our ability to accurately predict and effectively manage health benefits and other operating expenses, including our ability to reinsure certain risks related to medical expenses;

the potential for confusion in the marketplace concerning PDP and PFFS programs resulting from, among other things, the proliferation of healthcare options facing Medicare beneficiaries and the complexity of the PDP and PFFS programs, including the benefit structures and the relative lack of awareness of these programs among healthcare providers, pharmacists, patient advocates and state regulators;

our ability to accurately estimate incurred but not reported medical costs;

risks associated with future changes in laws applicable to our business, including repeal or modification of the Medicare Modernization Act of 2003 or any portion thereof;

potential reductions in funding for government healthcare programs, including proposals in Congress to reduce funding of Medicare Advantage programs;

risks associated with periodic government rate reimbursement adjustments, including the timing of the CMS risk-corridor payments to PDP providers and other program reconciliations;

risks associated with negative publicity regarding the health insurance industry, including government managed care organizations;

our ability to develop processes and systems to support our operations and future growth;

regulatory changes and developments, including potential marketing restrictions, sanctions, governmental investigations or premium recoupments;

potential fines, penalties or operating restrictions resulting from regulatory audits, examinations, investigations or other inquiries;

risks associated with our acquisition strategy;

risks associated with our efforts to expand into additional states, counties and lines of business;

risks associated with our substantial debt obligations; and

risks associated with our rapid growth, including our ability to attract and retain qualified management personnel.

Additional information concerning these and other important risks and uncertainties can be found under the headings *Forward-Looking Statements* and *Risk Factors* in the 2006 Form 10-K and *Risk Factors* in this Form 10-Q for the quarterly period ended June 30, 2007, which contain discussions of our business and the various factors that may affect it. We specifically disclaim any obligation to update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

We provide managed care services exclusively to government-sponsored healthcare programs, focusing on Medicare and Medicaid. We offer a variety of Medicare and Medicaid plans, including health plans for families, children, the aged, blind and disabled and prescription drug plans, currently serving over 2.3 million members nationwide as of June 30, 2007.

Table of Contents

Medicaid was established under the U.S. Social Security Act of 1965 to provide medical assistance to low income and disabled persons. It is state operated and implemented, although it is funded by both the state and federal governments. Our Medicaid plans include plans for individuals who are dually eligible for both Medicare and Medicaid, and recipients of the Temporary Assistance to Needy Families (TANF) program, Supplemental Security Income (SSI) program, State Children s Health Insurance (S-CHIP) program, and the Family Health Plus (FHP) program. The TANF program generally provides assistance to low-income families with children and the SSI program generally provides assistance to low-income aged, blind or disabled individuals. Families who exceed the income thresholds for Medicaid may be able to qualify for the state S-CHIP and FHP programs.

Medicare is a federal program that provides eligible persons age 65 and over and some disabled persons a variety of hospital, medical insurance and prescription drug benefits. Medicare is administered and funded by the federal Centers for Medicare & Medicaid Services (CMS). Our Medicare plans include stand-alone prescription drug plans (PDP) and Medicare Advantage (MA) plans which include both Medicare coordinated care (MCC) plans and Medicare private fee-for-service (PFFS) plans. Medicare Advantage is Medicare s managed care alternative to original Medicare fee-for-service which individuals enroll into directly through CMS. MCC plans are plans that are administered through a health maintenance organization and generally require members to seek health care services from a network of health care providers. PFFS plans are open-access plans that allow members to be seen by any physician or facility that participates in the Medicare program.

We believe that our experience in managing healthcare for this broad range of beneficiaries better positions us to capitalize on growth opportunities across all of these programs. In addition, unlike many other managed care organizations that attempt to serve the general population through commercial health plans, we focus exclusively on serving individuals in government programs. We believe that this focus allows us to better serve our members and providers and to more efficiently manage our operations. We have centralized core functions, such as claims processing and medical management, combined with localized marketing and strong provider relationships. We believe that this approach will allow us to continue effectively growing our business, both through organic growth and through acquisitions.

Through our licensed subsidiaries, as of June 30, 2007, we operated Medicaid plans in Florida, New York, Connecticut, Illinois, Missouri, Georgia and Ohio and our MCC plans in Florida, New York, Connecticut, Illinois, Louisiana and Georgia. We also operated stand-alone Medicare PDP plans in all 50 states and the District of Columbia and Medicare PFFS plans in 793 counties in 39 states and Washington, D.C.

The following tables summarize our membership by segment and line of business as of June 30, 2007 and 2006.

	June 30, 2007	June 30, 2006
<u>Medicaid</u>		
TANF	858,000	779,000
S-CHIP	217,000	162,000
SSI	70,000	59,000
FHP	31,000	27,000
	1,176,000	1,027,000
<u>Medicare</u>		
MA	155,000	83,000
PDP	971,000	901,000
	1,126,000	984,000

Total	2,302,000	2,011,000
--------------	-----------	-----------

We enter into contracts with government agencies that administer health benefits programs. These contracts generally are subject to renewal every one to three years. We receive premiums from state and federal agencies for the members that are assigned to or have selected us to provide healthcare services under each benefit program. The amount of premiums we receive for each member is fixed, although it varies according to demographics, including the government program, and the member's geographic location, age and gender, and the premiums are subject to periodic adjustments.

Table of Contents

Our largest expense is the cost of medical benefits that we provide, which is based primarily on our arrangements with healthcare providers. Our profitability depends on our ability to predict and effectively manage medical benefits expense relative to the fixed premiums we receive. Our arrangements with providers fall into two broad categories: capitation arrangements, where we pay the providers a fixed fee per member, and fee-for-service and risk-sharing arrangements, where we assume all or part of the risk of the cost of the healthcare provided. Generally, capitation payments represent less than 20% of our total medical benefits expense. Other components of medical benefits expense are variable and require estimation and ongoing cost management.

Estimation of medical benefits expense is our most significant critical accounting estimate. See Management's Discussion and Analysis of Financial Condition and Results of Operations - Critical Accounting Policies.

We use a variety of techniques to manage our medical benefits expense, including payment methods to providers, referral requirements, quality and disease management programs, reinsurance and member co-payments and premiums for some of our Medicare plans. National healthcare costs have been increasing at a higher rate than the general inflation rate, however, and relatively small changes in our medical benefits expense relative to premiums that we receive can create significant changes in our financial results. Changes in healthcare laws, regulations and practices, levels of use of healthcare services, competitive pressures, hospital costs, major epidemics, terrorism or bio-terrorism, new medical technologies and other external factors could reduce our ability to manage our medical benefits expense effectively.

One of our primary tools for measuring profitability is our medical benefits ratio, the ratio of our medical benefits expense to the premiums we receive. Changes in the medical benefits ratio from period to period result from, among other things, changes in Medicaid and Medicare funding, changes in the mix of Medicaid and Medicare membership, our ability to manage medical costs and changes in accounting estimates related to incurred but not reported claims. We use medical benefits ratios both to monitor our management of medical benefits expense and to make various business decisions, including what healthcare plans to offer, what geographic areas to enter or exit and the selection of healthcare providers. Although medical benefits ratios play an important role in our business strategy, we may be willing to enter into provider arrangements that might produce a less favorable medical benefits ratio if those arrangements, such as capitation or risk-sharing, would likely lower our exposure to variability in medical costs.

Segments

We have two reportable business segments: Medicaid and Medicare. Medicaid, a state-administered program, was enacted in 1965 to make federal matching funds available to all states for the delivery of healthcare benefits to eligible individuals, principally those with incomes below specified levels who meet other state specified requirements. Medicaid is structured to allow each state to establish its own eligibility standards, benefits package, payment rates and program administration under broad federal guidelines. Most states determine threshold Medicaid eligibility by reference to other federal financial assistance programs, including the TANF and SSI programs.

TANF provides assistance to low-income families with children. SSI is a federal program that provides assistance to low-income aged, blind or disabled individuals. However, states can broaden eligibility criteria.

S-CHIP, developed in 1997, is a federal/state matching program that provides healthcare coverage to children in low income families not otherwise covered by Medicaid or other insurance programs. It must be reauthorized by Congress this year. S-CHIP enables a segment of the large uninsured population in the United States to receive healthcare benefits. States have the option of administering S-CHIP through their Medicaid programs.

FHP is a New York State program that provides health insurance for certain adults and their families between the ages of 19 and 64 who do not have health insurance on their own, but have income too high to qualify for Medicaid.

Medicare is a federal program that provides eligible persons age 65 and over and some disabled persons a variety of hospital, medical insurance and prescription drug benefits. Most individuals eligible for Medicare are entitled to receive inpatient hospital care without the payment of any premium, but are required to pay a premium to the federal government, which is adjusted annually, to be eligible for physician care and other services.

Under the MA program, managed care plans can contract with CMS to provide health insurance coverage in exchange for a fixed monthly payment per member based on the geographic area in which the member resides. The fixed monthly payment per member is subject to periodic adjustments determined by CMS based upon a number of factors,

Table of Contents

including retroactive changes in members' status such as Medicaid eligibility, and risk measures based on demographic factors such as age, gender, county of residence and health status. The weighting of the risk measures in the determination of the amount of the periodic adjustments to the fixed monthly payments was phased in over time and first became fully implemented at the beginning of 2007. Individuals who elect to participate in the MA program are relieved of the obligation to pay some or all of the deductible or coinsurance amounts required under the original Medicare fee-for-service program, but in the case of MCC plans, are generally required to use services provided by the MA plan's network providers, and may be required to pay a premium to the federal Medicare program unless the MA plan chooses to pay the premium as part of its benefit package.

As part of the Medicare reform legislation known as the Medicare Prescription Drug, Improvement and Modernization Act of 2003, beginning in January 2006, Medicare recipients were provided the opportunity to select a prescription drug plan through Medicare Part D, largely funded by the federal government. The Medicare Part D benefit is available to Medicare managed care enrollees as well as Medicare fee-for-service enrollees. MCC plans are required to offer a plan that includes Part D drug benefits, called a MA-PD plan, in every region in which they operate.

The Medicare Part D benefit, which provides prescription drug benefits, is available to MA enrollees as well as original Medicare fee-for-service enrollees. MCC plans are required to offer a Part D drug benefit, whereas PFFS plans have the option of providing a Part D benefit, but are not required to do so. Most of our PFFS products offer a Part D benefit. MCC plans and PFFS plans that include a Part D drug benefit are also known as MA-PD plans. Original Medicare fee-for-service beneficiaries and PFFS enrollees are able to purchase a stand-alone prescription drug plan, called a PDP plan, from a list of CMS-approved PDP plans such as ours.

We have experienced and continue to expect seasonality and fluctuations in our PDP earnings on a quarterly basis resulting from the design of our benefits and the interaction of various product features, such as deductibles, co-payments, the coverage gap, catastrophic coverage, risk corridors and reinsurance arrangements, all of which will impact our PDP earnings. Our PDP medical costs will be higher in the first half of the year than in the second half of the year. As a result, our net income margins are expected to be lower in the first half of the year and to increase in the second half of the year. During 2006, we purchased a one-year, nonrenewable, aggregate reinsurance policy for calendar year 2006 to mitigate the risks associated with our launch of our product by complementing the risk corridor protection and catastrophic coverage provided by CMS under the Medicare Part D program. The terms of this aggregate reinsurance policy resulted in higher recoveries in periods of higher medical benefits ratios and lower or no recoveries in periods of lower medical benefits ratios. The recoveries and net reinsurance impact under this aggregate reinsurance policy were cumulative over the one-year term of the policy. Our gross profit on our Medicare segment was favorably impacted by a net reinsurance recovery of approximately \$10 million in the three-month period ended March 31, 2006. In light of the 2007 PDP bid results and our 2006 experience with the PDP product, we did not purchase a similar reinsurance arrangement in 2007.

Growth Opportunities

We continually identify markets for potential acquisitions or expansion that would increase our membership and broaden our geographic presence. These potential acquisitions or expansion efforts are at various stages of internal consideration, and we may enter into letters of intent, transactions or other arrangements supporting our growth strategy at any time. However, we cannot predict when or whether such transactions or other arrangements will actually occur, and we may not be successful in completing potential acquisitions.

Critical Accounting Policies

In the ordinary course of business, we make a number of estimates and assumptions relating to the reporting of our results of operations and financial condition in conformity with accounting principles generally accepted in the United States of America. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ significantly from those estimates under different assumptions and conditions. We believe that the accounting policies discussed below are those that are most important to the presentation of our financial condition and results and require management's most difficult, subjective and complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain.

Revenue recognition. Our Medicaid contracts with state governments are generally multi-year contracts subject to annual renewal provisions. Our MA and PDP contracts with CMS generally have terms of one year. We generally receive premiums in advance of providing services, and recognize premium revenue during the period in which we are obligated to

Table of Contents

provide services to our members. Premiums are billed monthly for coverage in the following month and are recognized as revenue in the month for which insurance coverage is provided. We estimate, on an ongoing basis, the amount of member billings that may not be fully collectible based on historical trends and other factors. An allowance is established for the estimated amount that may not be collectible. This allowance has not been significant to premium revenue. The payment we receive monthly from CMS for our PDP program generally represents our bid amount for providing prescription drug insurance coverage. We recognize premium revenue for providing this insurance coverage ratably over the term of our annual contract. However, our CMS payment is subject to (i) risk corridor adjustments and (ii) subsidies in order for us and CMS to share the risk associated with financing the ultimate costs of the Part D benefit. The amount of revenue payable to a plan by CMS is subject to adjustment, positive or negative, based upon the application of risk corridors that compare a plan's revenues targeted in their bids to actual prescription drug costs. Variances exceeding certain thresholds may result in CMS making additional payments to us or require us to refund to CMS a portion of the premiums we received. Actual prescription drug costs subject to risk sharing with CMS are limited to the costs that are, or would have been, incurred under the CMS defined standard benefit plan. We estimate and recognize an adjustment to premium revenues related to the risk corridor payment adjustment based upon pharmacy claims experience to date as if the annual contract were to terminate at the end of each reporting period. Accordingly, this estimate provides no consideration to future pharmacy claims experience. Premiums collected in advance are deferred and reported as unearned premiums in the accompanying condensed consolidated balance sheets and amounts that have not been received by the end of the period remain on the balance sheet classified as premium receivables.

Premium payments that we receive are based upon eligibility lists produced by the government. From time to time, states require us to reimburse them for premiums that we received from the states based on an eligibility list that a state later discovers contains individuals who were not eligible for any government-sponsored program or are eligible for a different premium category or a different program. We record adjustments to revenues based on member retroactivity. These adjustments reflect changes in the number of and eligibility status of enrollees subsequent to when revenue was billed. We estimate the amount of outstanding retroactivity each period and adjust premium revenue accordingly, if appropriate. The estimates of retroactivity adjustments are based on historical trends, premiums billed, the volume of member and contract renewal activity and other information. Our government contracts establish monthly rates per member, but may have additional amounts due to us based on items such as age, working status or specific health issues of the member. For example, CMS has implemented a risk adjustment model which apportions premiums paid to all Medicare plans according to the health status of each beneficiary enrolled.

The CMS risk adjustment model pays more for Medicare members with predictably higher costs. Under this risk adjustment methodology, diagnosis data from inpatient and ambulatory treatment settings are used to calculate the risk adjusted premium payment to us. We collect, capture and submit the necessary diagnosis data to CMS within prescribed deadlines. We estimate risk adjustment revenues based upon the diagnosis data submitted to CMS and ultimately accepted by CMS.

CMS transitioned to the risk adjustment model while the old demographic model was being phased out. The demographic model based the monthly premiums paid to Medicare plans on factors such as age, gender and disability status. The monthly premium amount for each member was separately determined under both the risk adjustment and demographic model, and these separate payment amounts were blended according to a transition schedule. 2007 is the first year in which risk adjusted payment for health plans is fully phased in. The PDP payment methodology is based 100% on the risk adjustment model which began in 2006. As a result of this process and the phasing in of the risk adjustment model, our CMS monthly premium payments per member may change materially, either favorably or unfavorably.

Estimating medical benefits expense and medical benefits payable. The cost of medical benefits is recognized in the period in which services are provided and includes an estimate of the cost of medical benefits that have been incurred but not yet reported. We contract with various healthcare providers for the provision of certain medical care services to our members and generally compensate those providers on a fee-for-service or capitated basis or pursuant to certain risk-sharing arrangements. Capitation represents fixed payments generally on a per-member-per-month, or PMPM, basis to participating physicians and other medical specialists as compensation for providing comprehensive

healthcare services. By the terms of our capitation agreements, capitation payments we make to capitated providers alleviate any further obligation we have to pay the capitated provider for the actual medical expenses of the member.

Medical benefits expense has two main components: direct medical expenses and medically-related administrative costs. Direct medical expenses include amounts paid to hospitals, physicians and providers of ancillary services, such as

Table of Contents

laboratory and pharmacy. Medically-related administrative costs include items such as case and disease management, utilization review services, quality assurance and on-call nurses.

Medical benefits payable represents amounts for claims fully adjudicated awaiting payment disbursement and estimates for incurred, but not yet reported claims.

We have used a consistent methodology for estimating our medical benefits expense and medical benefits payable. Our policy is to record management's best estimate of medical benefits payable. Monthly, we estimate ultimate benefits payable based upon historical experience and other available information as well as assumptions about emerging trends, which vary by business segment. The process for preparing the estimate utilizes standard actuarial methodologies based on historical data. These standard actuarial methodologies include, among other factors, contractual requirements, historic utilization trends, the interval between the date services are rendered and the date claims are paid, denied claims activity, disputed claims activity, benefits changes, expected healthcare cost inflation, seasonality patterns and changes in membership. In developing the estimate, we apply different estimation methods depending on the month for which incurred claims are being estimated. For the more recent months, which constitute the majority of the amount of the medical benefits payable, we estimate our claims incurred by applying observed trend factors to the PMPM costs for prior months, which costs have been estimated using completion factors, in order to estimate the PMPM costs for the most recent months. We validate our estimates of the most recent PMPM costs by comparing the most recent months' utilization levels to the utilization levels in older months and actuarial techniques that incorporate a historical analysis of claim payments, including trends in cost of care provided and timeliness of submission and processing of claims.

Also included in medical benefits payable are estimates for provider settlements due to clarification of contract terms, out-of-network reimbursement, claims payment differences as well as amounts due to contracted providers under risk-sharing arrangements.

Many aspects of the managed care business are not predictable with consistency. These aspects include the incidences of illness or disease state (such as cardiac heart failure cases, cases of upper respiratory illness, the length and severity of the flu season, diabetes, the number of full-term versus premature births and the number of neonatal intensive care babies). Therefore, we must rely upon our historical experience, as continually monitored, to reflect the ever-changing mix, needs and growth of our membership in our trend assumptions. Among the factors considered by management are changes in the level of benefits provided to members, seasonal variations in utilization, identified industry trends and changes in provider reimbursement arrangements, including changes in the percentage of reimbursements made on a capitation as opposed to a fee-for-service basis. These considerations are aggregated in the trend in medical benefits expense. Other external factors such as government-mandated benefits or other regulatory changes, catastrophes and epidemics may impact medical cost trends. Other internal factors such as system conversions and claims processing interruptions may impact our ability to accurately predict estimates of historical completion factors or medical cost trends. Medical cost trends potentially are more volatile than other segments of the economy. Management is required to use considerable judgment in the selection of medical benefits expense trends and other actuarial model inputs.

We record reserves for estimated referral claims related to healthcare providers under contract with us who are financially troubled or insolvent and who may not be able to honor their obligations for the costs of medical services provided by other providers. In these instances, we may be required to honor these obligations for legal or business reasons. Based on our current assessment of providers under contract with us, such losses have not been and are not expected to be significant.

Changes in estimates of medical benefits payable are primarily the result of obtaining more complete claims information that directly correlates with the claims and provider reimbursement trends. Volatility in members' needs for medical services, provider claims submissions and our payment processes result in identifiable patterns emerging several months after the causes of deviations from assumed trends occur. Since our estimates are based upon PMPM claims experience, changes cannot typically be explained by any single factor, but are the result of a number of interrelated variables, all influencing the resulting experienced medical cost trend. Deviations, whether positive or negative, between actual experience and estimates used to establish the liability are recorded in the period known.

Goodwill and intangible assets. We obtained goodwill and intangible assets as a result of the acquisitions of our subsidiaries. Goodwill represents the excess of the cost over the fair market value of net assets acquired. Intangible assets include provider networks, membership contracts, trademarks, non-compete agreements, government contracts, licenses and permits. Our intangible assets are amortized over their estimated useful lives ranging from one to 26 years.

Table of Contents

We evaluate whether events or circumstances have occurred that may affect the estimated useful life or the recoverability of the remaining balance of goodwill and other identifiable intangible assets. We must make assumptions and estimates, such as the discount factor, in determining the estimated fair values. While we believe these assumptions and estimates are appropriate, other assumptions and estimates could be applied and might produce significantly different results.

We review goodwill and intangible assets for impairment at least annually, or more frequently if events or changes in circumstances occur that may affect the estimated useful life or the recoverability of the remaining balance of goodwill or intangible assets. Events or changes in circumstances would include significant changes in membership, state funding, medical contracts and provider networks. We have selected the third quarter of each fiscal year for our annual impairment test, which generally coincides with the finalization of state and federal contract negotiations and our initial budgeting process.

Results of Operations

The following table sets forth the condensed consolidated statements of income data, expressed as a percentage of total revenues for each period indicated. The historical results are not necessarily indicative of results to be expected for any future period.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
	(As Restated)			
Statement of Operations Data:				
Revenues:				
Premium	98.6%	98.8%	98.6%	98.9%
Investment and other income	1.4%	1.2%	1.4%	1.1%
Total revenues	100.0%	100.0%	100.0%	100.0%
Expenses:

Interest	0.3%	0.4%	0.3%	0.4%
Total expenses	93.3%	96.4%	95.2%	96.8%
Income before income taxes	6.7%	3.6%	4.8%	3.2%
Income tax expense	2.6%	1.4%	1.8%	1.3%
Net income	4.1%	2.2%	3.0%	1.9%

One of our primary management tools for measuring profitability is MBR. Changes in the MBR from period to period result from, among other things, changes in Medicaid and Medicare funding, changes in the mix of Medicaid and Medicare membership, our ability to manage medical costs and changes in accounting estimates related to incurred but not reported claims. We use MBRs both to monitor our management of medical benefits expense and to make various business decisions, including what healthcare plans to offer, what geographic areas to enter or exit and the selection of healthcare providers. Although MBRs play an important role in our business strategy, we may be willing to enter into provider arrangements that might produce a less favorable MBR if those arrangements, such as capitation or risk-sharing, would likely lower our exposure to variability in medical costs.

Three- and Six-Month Periods Ended June 30, 2007 Compared to the Three- and Six-Month Periods Ended June 30, 2006 (Restated)

Premium revenue. Premium revenues for the three months ended June 30, 2007 increased \$467.3 million, or 55.6%, to approximately \$1.3 billion from \$840.5 million for the same period in the prior year. For the six months ended June 30, 2007, premium revenues increased \$964.3 million, or 59.1%, to approximately \$2.6 billion from \$1.6 billion for the same period in the prior year. The increase is primarily attributable to the addition of members from membership growth in both our Medicaid and Medicare segments. The Medicaid segment increase is principally due to Georgia membership growth and expansion into the Ohio market offset by the non-renewal of the Indiana contract. The Medicare segment increase is primarily related to PDP membership growth and the launch of PFFS in January 2007. Total membership grew by approximately 291,000 members,

29

Table of Contents

or 14.5%, from 2,011,000 at June 30, 2006 to 2,302,000 at June 30, 2007.

Our Medicaid segment includes Medicaid programs and other state-sponsored healthcare programs. The Medicaid segment premium revenue for the three months ended June 30, 2007 increased \$266.2 million, or 69.5%, to \$649.4 million from \$383.2 million for the same period in the prior year. For the six months ended June 30, 2007, Medicaid segment premium revenue increased \$550.9 million, or 75.3%, to approximately \$1.3 billion from \$731.9 million for the same period in the prior year. The increase in Medicaid segment revenue is due to year over year growth in membership, principally in Georgia and the Ohio expansion, which accounted for \$219.4 million and \$43.0 million in the three-months period, respectively, and \$465.4 million and \$72.6 million in the six-month periods, respectively. Our membership growth was coupled with increases in premium rates in certain markets. Aggregate membership in our Medicaid segment grew by approximately 149,000 members, or 14.5%, from 1,027,000 at June 30, 2006 to 1,176,000 at June 30, 2007.

	Medicaid Revenues and Membership			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
	(As Restated)			
Revenues (in millions)	\$ 649.4	\$ 383.2	\$ 1,282.8	\$ 731.9
% of Total Premium Revenues	49.7%	45.6%	49.4%	44.8%
Membership	1,176,000	1,027,000	1,176,000	1,027,000
% of Total Membership	51.1%	51.1%	51.1%	51.1%

Medicare segment premium revenue for the three months ended June 30, 2007 increased \$201.1 million, or 44.0%, to \$658.4 million from \$457.3 million for the same period in the prior year. For the six months ended June 30, 2007, Medicare segment premium revenue increased \$413.4 million, or 45.9%, to approximately \$1.3 billion from \$900.3 million for the same period in the prior year. Growth in premium revenue within the Medicare segment was primarily due to PDP membership growth, the launch of PFFS and premium increases associated with the demographic mix of our MA membership growth. Membership within the Medicare segment grew by approximately 142,000 members, or 14.4% from 984,000 at June 30, 2006 to 1,126,000 at June 30, 2007, principally due to PDP and the PFFS product.

	Medicare Revenues and Membership			
	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2007	2006	2007	2006
	(As Restated)			
Revenues (in millions)	\$ 658.4	\$ 457.3	\$ 1,313.7	\$ 900.3
% of Total Premium Revenues	50.3%	54.4%	50.6%	55.2%
Membership	1,126,000	984,000	1,126,000	984,000
% of Total Membership	48.9%	48.9%	48.9%	48.9%

Investment and other income. Investment and other income for the three months ended June 30, 2007 increased \$9.0 million, or 88.2%, to \$19.2 million from \$10.2 million for the same period in the prior year. For the six months ended June 30, 2007, investment income increased \$18.6 million, or 101.6%, to \$36.9 million from \$18.3 million for the same period in the prior year. The increase was due primarily to a higher average cash balance and the investment of excess cash generated by operations.

Medical benefits expense. Medical benefits expense for the three months ended June 30, 2007 increased \$361.2 million, or 51.0%, to \$1.1 billion from \$707.6 million for the same period in the prior year. For the six months ended June 30, 2007, medical benefits expense increased \$783.1 million, or 56.7%, to approximately \$2.2 billion from

approximately \$1.4 billion for the same period in the prior year. The MBR for the three months ended June 30, 2007 was 81.7% compared to 84.2% for the same period in the prior year. For the six months ended June 30, 2007, the MBR was 83.3% compared to 84.6% for the same period in the prior year.

	Medical Benefits Expense			
	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
	(As Restated)			
Medical Benefits Expense	\$ 1,068.8	\$ 707.6	\$ 2,164.1	\$ 1,381.0
MBR	81.7%	84.2%	83.3%	84.6%
	30			

Table of Contents

The Medicaid segment medical benefits expense for the three months ended June 30, 2007 increased \$232.9 million, or 75.0%, to \$543.2 million from \$310.3 million for the same period in the prior year.

	Medicaid Medical Benefits Expense			
	Three Months		Six Months Ended	
	Ended		June 30,	
	2007	2006	2007	2006
	(As Restated)			
Medicaid Medical Benefits Expense	\$ 543.2	\$ 310.3	\$ 1,075.6	\$ 589.5
MBR	83.6%	81.0%	83.8%	80.5%

The increase in Medicaid medical benefits expense for the three-month period ended June 30, 2007 was primarily due to growth in membership. Growth and expansion in our Georgia and Ohio markets accounted for \$167.6 million and \$36.8 million, respectively. This increase was partially offset by the loss of our Indiana contract, which decreased our medical expenses by \$26.1 million. The remaining increase is attributed to overall membership changes, combined with utilization patterns and costs. For the six months ended June 30, 2007, Medicaid medical benefits expense increased \$486.1 million, or 82.5%, to \$1.1 billion from \$589.5 million for the same period in the prior year. Membership growth in our Georgia market accounted for \$577.6 million of the increase and expansion into Ohio contributed another \$107.2 million. The loss of our Indiana contract offset the increase by \$57.9 million. The remaining \$140.8 million decrease when comparing the six-month periods were primarily attributed to increased healthcare costs and changes in membership mix. The Medicaid MBR for the three months ended June 30, 2007 was 83.6% compared to 81.0% for the same period in the prior year. This decrease was primarily due to higher medical costs in our Georgia market in 2006 during the early stages of operation. For the six months ended June 30, 2007, the Medicaid MBR was 83.8% compared to 80.5% for the same period in the prior year. This increase is due to changes in the healthcare utilization pattern of our members and the demographic mix of our members.

Medicare segment medical benefits expense for the three months ended June 30, 2007 increased \$128.4 million, or 32.3%, to \$525.7 million from \$397.3 million for the same period in the prior year.

	Medicare Medical Benefits Expense			
	Three Months		Nine Months Ended	
	Ended		June 30,	
	2007	2006	2007	2006
	(As Restated)			
Medicare Medical Benefits Expense	\$ 525.7	\$ 397.3	\$ 1,088.5	\$ 791.5
MBR	79.8%	86.9%	82.9%	87.9%

The decrease in medical benefits expense was primarily due to the growth in membership in PFFS, which accounted for \$109.7 million of the increase in the quarter. Additional membership growth in other markets, increased healthcare costs and changes in membership mix accounted for the remaining \$18.7 million of the quarterly increase. For the six months ended June 30, 2007, Medicare medical benefits expense increased \$297.0 million, or 37.5%, to approximately \$1.1 billion from \$791.5 million for the same period in the prior year. Membership growth in our PFFS and PDP business accounted for \$177.3 and \$149.3 million, respectively, of the increase in the six-month period, while the absence of a formulary transition period in our PDP product resulted in better formulary compliance and increased generic fill rates in the first half of 2007. This offset the increase in medical benefits expense by \$99.3 million, membership growth in other markets, increased healthcare costs and changes in membership mix accounted for the remaining \$69.7 million six-month increase. The Medicare MBR for the three months ended June 30, 2007 was 79.8% compared to 86.9% for the same period in the prior year. The MBR decreased primarily as a result of the

changes in the demographic mix of our members including PFFS. For the six months ended June 30, 2007, the Medicare MBR was 82.9% compared to 87.9% for the same period in the prior year. High PDP membership retention and increased generic fill rates in the first half of 2007 contributed to the decrease in MBR.

Table of Contents

Selling, general and administrative expense. Selling, general and administrative (SG&A) expense for the three months ended June 30, 2007 increased \$56.5 million, or 53.7%, to \$161.7 million from \$105.2 million for the same period in the prior year. For the six months ended June 30, 2007, SG&A expense increased \$124.3 million, or 61.2%, to \$327.3 million from \$203.0 million for the same period in the prior year. Our SG&A expense to revenue ratio was 12.2% for the three months ended June 30, 2007 compared to 12.4% for the same period in the prior year. For the six months ended June 30, 2007, our SG&A expense to revenue ratio was 12.4% compared to 12.3% for the same period in the prior year. The decrease in our SG&A expense to total revenue ratio was attributed to becoming operational in both our PFFS and Ohio markets.

Selling, General and Administrative Expense
Three Months
Ended
June 30,
2007 **2006** **Six Months Ended**
June 30,
2007 **2006**
(As Restated)

SG&A (in millions)	\$ 161.7	\$ 105.2	\$ 327.3	\$ 203.0
SG&A expense to total revenue ratio	12.2%	12.4%	12.4%	12.3%

Depreciation and amortization expense. Depreciation and amortization expense for the three months ended June 30, 2007 increased \$1.0 million, or 30.3%, to \$4.3 million from \$3.3 million for the same period in the prior year. For the six months ended June 30, 2007, depreciation and amortization expense increased \$2.5 million, or 39.7%, to \$8.8 million from \$6.3 million for the same period in the prior year. An increase in the three-month period is primarily attributable to approximately \$2.3 million accelerated amortization for our Indiana Medicaid contract and provider agreement intangible assets purchased in 2004 that were deemed to have no further economic value in the third quarter of 2006. Increased depreciation expense resulting from our investment in infrastructure, primarily technology to support our increased membership growth, accounted for the change in the six-month period.

Interest expense. Interest expense was \$3.4 million and \$3.7 million for the three months ended June 30, 2007 and 2006, respectively, and \$6.9 million and \$7.1 million for the six months ended June 30, 2007 and 2006, respectively. The change in the periods is primarily attributable to a decrease in the outstanding debt balance due to repayment of the note payable to related party in 2006, partially offset by a higher interest rate environment.

Income tax expense. Income tax expense for the three months ended June 30, 2007 was \$34.0 million with an effective tax rate of 38.2% as compared to \$12.3 million for the same period in the prior year with an effective tax rate of 39.7%. Income tax expense for the six months ended June 30, 2007 was \$48.6 million with an effective tax rate of 38.5% as compared to \$21.2 million for the same six-month period in the prior year with an effective tax rate of 39.9%.

Table of Contents**Liquidity and Capital Resources***Cash Generating Activities*

We manage our cash and investments in a manner that allows us to meet our short-term, long-term and regulatory requirements. We monitor and forecast our capital resources to ensure that we maintain the financial flexibility we need to take advantage of viable business opportunities. At June 30, 2007 and 2006, cash and cash equivalents were \$1,475.0 million and \$834.1 million, respectively. We also had short-term investments of \$166.3 million and \$178.8 million at June 30, 2007 and 2006, respectively.

Our regulated subsidiaries are financed principally through internally generated funds. We generate cash mainly from premium revenue, and we generally receive premium revenue in advance of payment of claims for related healthcare services. Our primary use of cash is the payment of expenses related to medical benefits and administrative costs. Our investment policies are designed primarily to provide liquidity and preserve capital. The states in which we operate prescribe the types of instruments in which our regulated subsidiaries may invest their funds. As of June 30, 2007 and 2006, a substantial portion of our cash was invested in certificates of deposit and a portfolio of highly liquid money market securities with a weighted-average maturity of 99 days and 86 days, respectively. The average portfolio yield for the three-month periods ended June 30, 2007 and 2006 was approximately 3.72% and 3.87%, respectively.

Our non-regulated businesses also generate positive cash flows that are used for corporate purposes. At June 30, 2007, free cash in our non-regulated businesses was approximately \$107.0 million. We generally invest cash generated from our non-regulated entities in certificates of deposit and government municipal bonds. The factors that we consider in making these investment decisions include term to maturity, rate of return and ratings for municipal bonds.

We expect our future funding for working capital needs, capital expenditures, long-term debt repayments, and other financing activities will continue to be provided from these resources. From time to time, we may need to raise additional capital or draw on our revolving credit facility to fund planned geographic and product expansion or acquire healthcare businesses. As of June 30, 2007, we had not utilized our revolving credit facility.

Each of our existing and anticipated sources of cash are impacted by operational and financial risks that influence the overall amount of cash generated and the capital available to us. For a further discussion of risks that can impact our liquidity, see the risk factor discussion included in our 2006 and 2007 Form 10-K.

Overview of Cash Flow Activities

For the six-month periods ended June 30, 2007 and 2006 as restated our cash flows are summarized as follows (in thousands):

	Six Months Ended June 30,	
	2007	2006
	(Restated)	(Restated)
	(In thousands)	
Net cash provided by operations	\$ 366,990	\$ 279,014
Net cash used in investing activities	(68,689)	(118,119)
Net cash provided by financing activities	213,205	251,498

Cash from Operations: As we generally receive premiums in advance of payments of claims for healthcare services, we maintain balances of cash and cash equivalents pending payment of claims. During the six-month period ended June 30, 2007, cash provided from operations consisted primarily of \$77.7 million of net income from operations, an increase in medical benefits payable of \$138.9 million, an increase in unearned premiums of \$254.5 million and \$31.7 million in taxes payable.

Cash used in Investing Activities: During the six-month period ended June 30, 2007, investing activities consisted primarily of the investment of excess cash generated by operations totaling approximately \$79.8 million in various short-term investment instruments and \$22.7 million in restricted investments. An additional \$9.3 million was invested in capitalized assets and investments in technology needed to sustain our membership growth.

Table of Contents

Cash from Financing Activities: Included in financing activities are funds held for the benefit of others, which increased approximately \$185.7 million as of June 30, 2007. These PDP member subsidies represent pass-through payments from government partners and are not accounted for in our results of operations since they represent pass-through payments from our government partners to fund deductibles, co-payments and other member benefits for certain of our members. An additional \$13.3 million was received for options exercised.

We have a senior secured term loan facility of approximately \$155 million and a revolving credit facility in the amount of \$125.0 million, of which \$10.0 million is available for short-term borrowings on a swing-line basis. The term loan matures in May 2009, and the revolving credit facility will expire in May 2008. As of June 30, 2007, the revolving credit facility had not been utilized. As of June 30, 2007, our outstanding term loan interest rate was 7.875%. As of June 30, 2007, our senior debt was rated BB- by Standard & Poor's and Ba3 by Moody's.

Off-Balance Sheet Arrangements

As of June 30, 2007, we did not have any off-balance sheet arrangements that are required to be disclosed under Item 303(a)(4) of Regulation S-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

As of June 30, 2007, we had cash and cash equivalents of \$1.5 billion, investments classified as current assets of \$166.3 million, and restricted investments on deposit for licensure of \$74.0 million. The short-term investments classified as current assets consist of highly liquid securities with maturities between three and twelve months and longer term bonds with floating interest rates that are considered available for sale. Long-term restricted assets consist of cash and cash equivalents deposited or pledged to state agencies in accordance with state rules and regulations. These restricted assets are classified as long term regardless of the contractual maturity date due to the long-term nature of the states' requirements. The investments classified as long-term are subject to interest rate risk and will decrease in value if market rates increase. Because of their short-term pricing nature, however, we would not expect the value of these investments to decline significantly as a result of a sudden change in market interest rates. Assuming a hypothetical and immediate 1% increase in market interest rates at June 30, 2007, the fair value of our fixed income investments would decrease by less than \$1.4 million. Similarly, a 1% decrease in market interest rates at June 30, 2007 would result in an increase of the fair value of our investments of less than \$1.7 million.

Item 4. Controls and Procedures.***Special Committee Investigation and Restatement***

Upon consideration of certain issues identified in the Special Committee investigation discussed in the Explanatory Note and our 2007 10-K, and after discussions with management and our independent registered public accounting firm, the Audit Committee recommended to the Board, and the Board thereafter concluded, that we should restate our previously issued audited consolidated financial statements for the years ended December 31, 2004, 2005 and 2006, including each of the quarterly periods contained therein, and our previously issued unaudited condensed consolidated financial statements for the three months ended March 31, 2007 and June 30, 2007.

The restatements relate to accounting errors identified in connection with our compliance with the refund requirements under (a) the behavioral health component of our contract with AHCA to provide behavioral health care services for our Florida Medicaid members, (b) our Healthy Kids contract with the Florida Healthy Kids Corporation pursuant to which we provide health benefits for children whose family income renders them ineligible for Medicaid, and (c) our Medicaid contract with the Illinois Department of Health and Family Services to provide health care services to our Illinois Medicaid members.

For a discussion of the restatement impact to periods covered in this Amended Form 10-Q, refer to Note 2 to the Condensed Consolidated Financial Statements.

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Amended Form 10-Q and in light of the Special Committee investigation and restatement of the Company's financial statements, management, under the leadership and with the participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), undertook to re-evaluate the conclusion in our Original Form 10-Q that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were effective as of June 30, 2007. Based on that re-evaluation, our

Table of Contents

CEO and CFO have concluded that our disclosure controls and procedures were not effective as of June 30, 2007 because of the material weaknesses in our internal control over financial reporting, which is an integral component of our disclosure controls and procedures, as described below.

Nevertheless, based on a number of factors, including the efforts discussed below to remediate the material weaknesses in internal control over financial reporting, and the performance of additional procedures by management designed to ensure the reliability of our financial reporting, we believe that the consolidated financial statements included in this Amended Form 10-Q fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods, presented, in conformity with GAAP.

Material Weaknesses in Internal Control Over Financial Reporting

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

In connection with the restatements described above, management undertook to assess the effectiveness of our internal control over financial reporting as of June 30, 2007, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, we determined that (a) former senior management set an inappropriate tone in connection with the Company's efforts to comply with the regulatory requirements related to the AHCA and Healthy Kids contracts that led to a deficiency in the design in our internal controls, and therefore a material weakness existed in a portion of the control environment and control activities components of our internal controls, and (b) former senior management's failure to ensure effective communications regarding the AHCA and Healthy Kids contracts with, among others, our Board and certain regulators resulted in a material weakness in the information and communication system.

Based on the evaluation discussed above, Management has identified the following material weaknesses in WellCare's internal controls over financial reporting as of June 30, 2007:

Control Environment and Control Activities

We identified a material weakness in a portion of the control environment and control activities components of our internal controls. We have determined that certain former members of senior management set an inappropriate tone in connection with our efforts to comply with the regulatory requirements related to the AHCA contract and Healthy Kids contract that led to a deficiency in the design of our internal controls. Specifically, there was inadequate control over financial reporting as of June 30, 2007 with respect to interpreting and complying with regulatory guidance and other contracted terms when calculating, submitting and reserving for estimated self-reported retrospective settlements with a state agency with which certain of our subsidiaries were contracted to provide Medicaid services.

Information and Communication

We have determined that certain former members of senior management failed to ensure effective communications with, among others, our Board and certain regulators regarding the AHCA contract and Healthy Kids contract, and therefore a material weakness existed in a portion of the information and communication system. Specifically, there was a lack of communication regarding the Company's interpretation of and compliance with regulatory guidance and other contracted terms pertaining to self-reported retrospective settlements as well as with regard to inquiries from a state agency pertaining to the retrospective settlement process.

Changes in Internal Controls

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents*Remedial Measures*

As described more fully in Part II Item 9A Controls and Procedures of our 2007 10-K, filed on January 26, 2009, in connection with the restatement and the material weaknesses described above, our Board of Directors, various Board committees and our new senior management team are developing and implementing new processes and procedures governing our internal control over financial reporting. We believe that these measures will remediate the material weaknesses we have identified as of June 30, 2007 and strengthen our internal control over financial reporting and disclosure controls and procedures. Under the direction of the Audit Committee, management will continue to review and revise as warranted the overall design and operation of our internal control environment, as well as policies and procedures to improve the overall effectiveness of our internal control over financial reporting. As we continue to evaluate and work to improve our internal control over financial reporting, we may determine to take additional measures to address control deficiencies or determine to modify, or in appropriate circumstances not to complete, certain of the remedial measures described above.

Limitations on the Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our disclosure controls and internal controls will prevent all errors and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls.

The design of any system of control also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, a control may become inadequate because of changes in conditions or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and may not be detected.

Part II OTHER INFORMATION**Item 1. Legal Proceedings.**

For information regarding pending legal proceedings, see Part I Item III Legal Proceedings of our 2007 10-K. As of the date hereof, there have been no material developments in the pending legal proceedings disclosed in our 2007 10-K.

Item 1A. Risk Factors.

Under Part I Item 1A Risk Factors of our 2007 10-K, we set forth risk factors related to (i) our failure to file timely periodic reports with the SEC and certain regulatory filings with state agencies; (ii) our internal control over financial reporting; (iii) the pending government investigations and litigation; (iv) our business; (v) our financial condition; (vi) being a regulated entity, and (vii) our common stock. You should carefully consider the risk factors set forth in our 2007 10-K. As of the date hereof, there have been no material changes to the risk factors disclosed in our 2007 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In connection with our initial public offering of our common stock, the SEC declared our Registration Statement on Form S-1 (No. 333-112829), filed under the Securities Act of 1933, effective on June 29, 2004.

Upon the completion of our initial public offering, we invested the net proceeds from the offering in short-term, interest-bearing, investment-grade securities. As of June 30, 2007, we have used approximately \$48.1 million of our offering proceeds in the original amount of \$157.5 million. Of the proceeds used, \$24.0 million was used to pay-off the related party note that we issued as part of the consideration for the acquisition of the WellCare group of companies and the remaining \$24.1 million was used to fund other expansion opportunities, including the required statutory capital for our new markets.

Table of Contents

Item 3. Defaults upon Senior Securities.

As of June 30, 2007, we did not have any defaults upon senior securities. However, as previously disclosed and described in our 2007 10-K, our senior secured credit facility with Wachovia Bank, as Administrative Agent, and a syndicate of lenders, which has a term loan facility with an outstanding balance of approximately \$152.8 million as of December 31, 2008, is currently in default and subject to acceleration by the lenders and, absent acceleration by the lenders, will become due and payable on May 13, 2009. Although we are not in payment default, we are in default of a number of covenants contained in the credit agreement (including our failure to provide the lenders with audited financial statements, our 2008 budget and other requested reports and information), some of which cannot be cured prior to maturity of the senior secured credit facility (such as our entry into intercompany loan transactions that were not effected in compliance with the credit agreement). As of the date hereof, our payment obligations under the credit agreement have not been accelerated and the rate of interest has not been increased. However, we cannot provide any assurance that such obligations will not be accelerated or the rate of interest increased in the future or that the lenders will not exercise other remedies for default. For more information, refer to 2007 10-K filed with the SEC on January 26, 2009.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.
