Plan Administrative Committee
State Auto Insurance Companies Capital Accumulation Plan

We have audited the accompanying statements of assets available for benefits of the State Auto Insurance Companies Capital Accumulation Plan as of December 31, 2003 and 2002, and the related statement of changes in assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets available for benefits of the Plan as of December 31, 2003 and 2002, and the changes in assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of assets (held at end of year) as of December 31, 2003 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

STATE AUTO INSURANCE COMPANIES CAPITAL ACCUMULATION PLAN
Notes to the Financial Statements
December 31, 2003

1. DESCRIPTION OF THE PLAN

ORGANIZATION

The State Auto Insurance Companies Capital Accumulation Plan (the Plan), a defined-contribution plan, was adopted effective June 1, 1982, by State Automobile Mutual Insurance Company and its affiliates (the Company) for the purpose of providing a savings plan for the benefit of its employees.

The following description of the Plan provides only general information. Participants should refer to the Plan Document for a complete description of the Plan.

GENERAL

An employee of the company is eligible to participate in the Plan as of the first pay period subsequent to thirty days after the employee's hire date, provided the employee is or will attain age 21 during the calendar year following the employee's hire date.

The Plan was amended and restated effective January 1, 1997 including subsequent amendments through January 1, 2004, to comply with recent legislation, regulation and rulings. See "Contributions" and "Investment Options."

CONTRIBUTIONS

Each participant may contribute any percentage of their salary between 1% and 50% (basic contribution). Subject to certain limitations, the Company matches the first 2% of basic contributions of participant salary at the rate of 75 cents for each dollar contributed; basic contributions of 3% to 6% are matched at a rate of 50 cents for each dollar contributed. Participants can change their rate of deferral as of any given pay date up to a maximum of four times per calendar year. Participants may also suspend contributions at any time. Participants may elect to make supplemental contributions in the form of

Edgar Filing: STATE AUTO FINANCIAL CORP - Form 11-K

after tax salary deferrals. Total participant contributions may not exceed 50% of salary.

Based on a provision of the Plan that became effective in January 2002, as of January 1, 2004, all Plan participants who attain age 50 or older during the calendar year, and are making the maximum Internal Revenue Code (the "Code") pre-tax contribution, may make additional "Catch-up Contributions" each pay period in any whole percentage amount of their compensation from 1% to 25%, up to a dollar limitation on the amount of Catch-up Contribution established by law.

VESTING

Plan participants are immediately fully vested in employee contributions and related net earnings or losses. Full vesting in employer contributions and related net earnings and losses occurs upon three completed years of service. Any employee terminating prior to three completed years of service vests in employer contributions and related net earnings and losses at percentages set forth by the Plan document.

In addition, employer contributions and related net earnings or losses are fully vested upon retirement at age 65, death or total and permanent disability.

Any forfeitures of non-vested employer contributions and related net earnings or losses reduce future employer contributions.

PARTICIPANT'S ACCOUNTS

Each participant's account is credited with the participant's contributions and allocations of a) the Company's contributions and b) Plan earnings, and is charged with applicable participant loan fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

PARTICIPANT LOANS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from 1-5 years, or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrative Committee. Principal and interest is paid ratably through bi-weekly payroll deductions.

INVESTMENT OPTIONS

Under the Plan trust agreement, participants may direct how their plan contributions are to be invested. The following description of the investment options provides only general information. Participants should refer to the Plan document for a complete description of the investments.

Plan contributions may be invested in the following ten funds at December 31, 2003:

Fidelity Puritan Fund: Consists of a diversified portfolio of high-yielding

Edgar Filing: STATE AUTO FINANCIAL CORP - Form 11-K

equity securities and bonds.

Fidelity Contrafund: Consists primarily of seemingly undervalued common stocks and convertible securities with potential for market growth.

Fidelity Equity Income Fund: Consists primarily of stocks which may pay a higher than average dividend and stocks with potential for market growth.

Fidelity U.S. Government Reserves Fund: Consists of short-term instruments issued by the U.S. Government and/or its agencies and repurchase agreements secured by U.S. Government obligations.

Fidelity Managed Income Portfolio Fund: Consists primarily of high quality short and long-term investment contracts. Investment contracts have both variable and fixed rates.

Fidelity Aggressive Growth Fund: Consists primarily of equity securities of companies with growth potential.

Spartan U.S. Equity Index Fund: Consists of equity securities that correspond to those listed in the Standard & Poor's 500 Index.

Fidelity Intermediate Bond Fund: Consists primarily of intermediate term, investment grade debt securities of U.S. corporations and U.S. Government Agencies.

Fidelity Diversified International Fund: Consists primarily of foreign securities.

State Auto Financial Corporation Common Stock Fund: Consists of publicly traded common stock of the State Auto Financial Corporation, an affiliate to the Company. The stock is traded on the NASDAQ under the ticker symbol, STFC.

Effective January 1, 2004, Plan contributions may be invested in the following additional six funds:

Fidelity Freedom Income Fund: Consists of Fidelity bond mutual funds and Fidelity money market mutual funds, and a lesser percentage of Fidelity stock mutual funds.

Fidelity Freedom 2000 Fund: Consists of Fidelity bond mutual funds and Fidelity money market mutual funds and a lesser percentage of Fidelity stock mutual funds.

Fidelity Freedom 2010 Fund: Consists of Fidelity stock mutual funds and Fidelity bond mutual funds and a lesser percentage in Fidelity money market mutual funds. The mix of underlying funds will gradually become more conservative over time.

Fidelity Freedom 2020 Fund: Consists of Fidelity stock mutual funds and a lesser percentage of Fidelity bond mutual funds. The mix of underlying funds will gradually become more conservative over time.

Fidelity Freedom 2030 Fund: Consists largely of Fidelity stock mutual funds and a lesser percentage of Fidelity bond mutual funds. The mix of underlying funds will gradually become more conservative over time.

Fidelity Freedom 2040 Fund: Consists primarily of Fidelity stock mutual funds and a lesser percentage of Fidelity bond mutual funds. The mix of underlying funds will gradually become more conservative over time.

ADMINISTRATIVE EXPENSES

Edgar Filing: STATE AUTO FINANCIAL CORP - Form 11-K

All administrative expenses, excluding participant loan fees, and trustee fees are paid by the Company.

7

STATE AUTO INSURANCE COMPANIES CAPITAL ACCUMULATION PLAN Notes to the Financial Statements, Continued

PAYMENT OF BENEFITS

Upon termination of service, participants generally receive a lump-sum amount equal to the value of their account less outstanding loan balances. Alternatively, qualifying participants can elect to receive their account value less outstanding loan balances in installments over a period not to exceed 10 years or, in the case of a retired participant, over a period not to exceed normal life expectancy.

Participants may semiannually withdraw from their supplemental accumulated contributions and, subject to certain conditions, participants may withdraw from their accumulated basic and supplemental contributions based on financial hardship. After participants have been in the plan for five years, and once every two years thereafter, participants may withdraw the vested portion of employer contributions credited to their account.

PLAN TERMINATION

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the Employee Retirement Income Security Act of 1974. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

2. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accounting records of the Plan are maintained in conformity with U.S. generally accepted accounting principles.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

VALUATION OF INVESTMENTS AND RELATED INVESTMENT INCOME

Investments are stated at fair value. The common/collective trust is valued based on quoted redemption value on the last business day of the Plan year. Shares of registered investment companies and shares of the State Auto Financial Corporation Common Stock Fund are valued at quoted market prices that represent the net asset values of shares held by the Plan at year-end. Loans to plan participants, which must be approved by the Plan Advisory Committee, are valued at their outstanding balances, which approximate fair value.

Investment income, including appreciation and depreciation in fair value of investments, is allocated to participant accounts daily based upon the ratio of each participants account to the total fund balance.

3. INVESTMENTS

The following investments, at fair value, represented 5% or more of assets available for benefits as of December 31, 2003 and 2002:

	DECEMBER 31	
	2003	2002
	-----	-----
Investments in shares of registered investment companies:		
Fidelity Contrafund	\$ 37,691,937	28,424,895

Investment in common/collective trusts:		
Fidelity Managed Income Portfolio Fund	\$ 15,490,394	15,108,988

During 2003 and 2002, the Plan's investments (including investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2003	2002
	-----	-----
Shares of registered investment companies	\$ 19,551,583	(13,732,511)
Affiliated stock	315,485	-
	-----	-----
Total realized and unrealized appreciation (depreciation)	\$ 19,867,068	(13,732,511)
	=====	=====

4. FEDERAL INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated August 16, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.
