Item 1.01 Entry into a Material Definitive Agreement

The information provided in Item 2.03 is incorporated by reference herein.

Item 2.03 Creation of a Material Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On December 21, 2006, Middlefield Banc Corp. (Middlefield) completed a private placement of \$8 million of trust preferred securities through a newly formed Delaware trust affiliate, Middlefield Statutory Trust I, (the Trust). The trust preferred securities mature January 30, 2037, are redeemable at Middlefield s option beginning after five years, and bear interest at a fixed rate of 6.58 % per annum through the interest payment date in January, 2012 and thereafter at a variable rate per annum, reset quarterly, equal to the three-month LIBOR plus 1.67%. The trust preferred securities will be recorded as a long-term liability on Middlefield s balance sheet. However, for regulatory purposes, the trust preferred securities will be treated as Tier 1 capital by the Federal Reserve Board, Middlefield s primary federal regulatory agency. All of the common securities of the Trust are held by Middlefield.

The proceeds from the sale of the trust preferred securities were used by the Trust to purchase \$8,248,000 in aggregate principal amount of Middlefield s junior subordinated debentures. The net proceeds to Middlefield from the sale of the debentures to the Trust will be used by Middlefield to finance its merger with Emerald Bank, which is expected to close in the 2nd quarter of 2007.

The debentures were issued pursuant to a Junior Subordinated Indenture, dated December 21, 2006, between Middlefield, as issuer, and Wilmington Trust Company, as trustee. Like the trust preferred securities, the debentures bear interest at a fixed rate of 6.58% per annum through the interest payment date in January, 2012 and thereafter at a variable rate per annum, reset quarterly, equal to the three-month LIBOR plus 1.67%. The interest payments by Middlefield will be used to pay the quarterly distributions payable by the Trust to the holder of the trust preferred securities. However, so long as no event of default has occurred under the debentures, Middlefield may defer interest payments on the debentures (in which case the Trust will also defer distributions otherwise due on the trust preferred securities) for up to 20 consecutive quarters. The debentures are subordinated to the prior payment of any other indebtedness of Middlefield that, by its terms, is not similarly subordinated.

The debentures mature on January 30, 2037, but may be redeemed at Middlefield s option at anytime on or after January 30, 2012, or at anytime upon certain events, such as a change in the regulatory capital treatment of the debentures, the Trust being deemed an investment company, or the occurrence of certain adverse tax events. The redemption price for the debentures is equal to 100% of the aggregate principal amount, plus accrued and unpaid interest, if any. Upon any redemption of the debentures, the Trust will redeem a like amount of the trust preferred securities.

Middlefield has also entered into a Guarantee Agreement, dated December 21, 2006, pursuant to which Middlefield has agreed to guarantee the payment by the Trust of distributions

on the trust preferred securities, and the payment of principal of the trust preferred securities when due, either at maturity or on redemption. However, this guarantee is applicable only if and to the extent that the Trust fails to pay distributions on or principal of the trust preferred securities after having received interest payments or principal payments on the notes from Middlefield for the purpose of paying those distributions or the principal amount of the trust preferred securities.
