Item 5.02 Departure of Directors or Certain Officers; Election of Directors' Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.

On February 25, 2015, Joseph P. Sullivan retired from the Board of Directors of Cigna Corporation ("Cigna" or the "Company"). Mr. Sullivan's retirement was consistent with the Board's mandatory age retirement policy and was not the result of any disagreement with the Company.

In connection with Mr. Sullivan's retirement, the Board, as permitted by the Company's bylaws, reduced the number of directors on the Board from twelve to eleven, effective immediately.

#### Item 7.01 Regulation FD Disclosure.

Cigna officials expect to participate in meetings and events with investors and analysts over the next several weeks. During these meetings, Company officials expect to reaffirm projected full year 2015 consolidated adjusted income from operations, which remains in the range of \$2.1 billion to \$2.2 billion.

Cigna discussed its full year 2015 outlook in its press release dated February 5, 2015 and during the related investor conference call. The release and the conference call transcript are available under Quarterly Reports and SEC Filings in the Investor Relations section of the Company's website located at [www.cigna.com/aboutcigna/investors](http://www.cigna.com/aboutcigna/investors).

Adjusted income from operations (loss) is defined as segment earnings (loss) excluding (i) special items; (ii) the results of Cigna's guaranteed minimum income benefits business; and (iii) amortization of other intangible assets. Segment earnings (loss) is defined as shareholders' net income (loss) before net realized investment results. Adjusted income from operations is a measure of profitability used by Cigna's management because it presents the underlying results of operations of Cigna's businesses and permits analysis of trends in underlying revenue, expenses and shareholders' net income. This measure is not determined in accordance with accounting principles generally accepted in the United States of America ("GAAP") and should not be viewed as a substitute for the most directly comparable GAAP measures, which are segment earnings (loss) on a segment basis and shareholders' net income on a consolidated basis. Management is unable to provide a forward-looking reconciliation of adjusted income from operations to shareholders' net income for full year 2015 since future net realized investment results and special items cannot be identified or reasonably estimated at this time.

This information shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act whether made before or after the date of this report, except as shall be expressly set forth by specific reference in such a filing.
